## ONE MINUTE PRODUCT MEETING

### LuxaCrown

LuxaCrown is a long-term provisional crown and bridge material that provides outstanding stability and durability.

This unique product allows for the quick and easy chairside manufacture of long-lasting crowns. The result is a cost-effective, precision-fit, highly esthetic and reliable restoration. It bridges the gap between temporary provisionals and permanent dental prostheses.

LuxaCrown offers high strength and exceptional shade stability, with a choice of five esthetic shades.
