

Invisible to Everyone But You

TempoCem®ID

It Stands Out by Blending In

From the makers of Luxatemp, TempoCemID delivers standout performance by blending in. This esthetic, temporary cement is invisible when you want it to be, yet detectable when you need it to be. Formulated for optimal transparency, TempoCemID will never impact the shade of your provisional, making it an ideal choice for both posterior and anterior restorations alike.

Unlike other esthetic temporary cements, excess TempoCemID is readily detectable (even below the gum line) and can often be removed in one piece. Non-eugenol TempoCemID flows and mixes easily, doesn't stick to instruments and is indicated for temporaries lasting up to six months. See your esthetic worries vanish before your eyes with TempoCemID.

Invisible under restorations,
Detectable for easy excess removal
