

4 Ways LuxaFlow Ultra Delivers Ultra-Good Outcomes

1. Always a polished performance

LuxaFlow Ultra is highly polishable for optimum esthetic results and more lifelike additions and repairs.

2. An all-star performer that's never in a slump

Delivered from a high precision syringe tip dispensing system, LuxaFlow Ultra provides excellent flowability in a non-slumping formula. It allows ease of blocking out undercuts, repairing enamel defects, voids, margins, as well as sealing gingival margin interfaces.

3. Easy diagnosis and controlled working time

LuxaFlow Ultra remains radiopaque for easy diagnosis. The ability to light cure it provides controlled working time and unsurpassed strength.

4. Unmatched color-matching

LuxaFlow Ultra's precise provisional color matching is ideal for building temporary crowns, bridges, inlays, onlays, and veneers and is available in five shades: A1, A2, A3, A3.5, and B1.

Naturally Lifelike Esthetics

The add-on with added esthetics and precision, delivers polishability and natural looking result with great precision.
