## ONE MINUTE PRODUCT MEETING

## Luxatemp Ultra

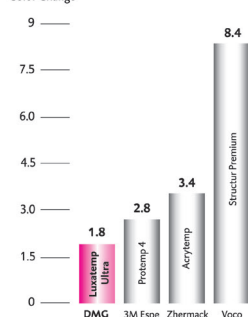

For more than 20 years, the industry-leading Luxatemp name has been associated with precision-fit, temporary crowns and bridges. Luxatemp Ultra continues to raise the bar, combining the high technology of a bisacryl resin with a fast, mistake proof delivery system. The result is a system that quickly and consistently produces highly esthetic and durable provisional restorations. Plus, the material reaches its final hardness quicker.

**Rated #1 in flexural strength**, Luxatemp Ultra's high break resistance and improved initial hardness make temporaries more stable than ever before. Its extraordinary long-term color stability offers a guarantee you can rely on.
