ONE MINUTE PRODUCT MEETING

LuxaCrown

LuxaCrown is a self-curing composite for the fabrication of semi-permanent crowns and bridges that are cemented with a permanent or temporary luting cement. This unique product allows for the simple, quick and cost-effective manufacture of long-lasting crowns – directly chairside. The result is an incredible precision-fit, a highly esthetic and long-lasting restoration of up to 5 years. LuxaCrown offers high-strength, quality and reliability. Characterized by natural fluorescence and high shade stability, a choice of five shades are available.

FEATURES & BENEFITS

- Quick and easy technique
- Optimum mechanical properties
- Excellent fracture toughness and flexural strength
- Excellent polishability
- Simple processing
- Impressively semi-permanent up to 5 years
