DentaMile Desk RS-1

Explore the chairside printing solution designed for dental excellence.

DentaMile Desk RS-1.

Powered by patented Force Feedback technology, the DentaMile Desk RS-1 delivers exceptional accuracy and speed — perfect for producing nightguards, models, bleaching trays, crowns, surgical guides, and more, directly at the chairside.

The certified auto-calibration ensures consistent print quality every time, while built-in RFID technology automates material identification for smoother workflows.

Compact and efficient, the DentaMile DeskRS-1 is ideal for modern practices looking to boost productivity and reduce patient visits. It is seamlessly compatible with DentaMile connect design software for easy design and direct printing with technical support, installation and training available from DMG, for all customers.
